As a memecoin, \$dude has no intrinsic value, no expectation of profit, and no prescribed utility. People are free to use \$dude how they want.

There is no presale. No \$DUDE are being distributed to influencers or promoters. None of the supply will be reserved. The entire \$DUDE Initial Distribution is itemized in a public spreadsheet linked in the \$DUDE announcement post.

The only funds going into \$DUDE is a small amount of ETH to start a Liquidity Pool where people can buy and sell \$DUDE if they wish. \$DUDE is a memecoin with no expectation of profit.
